

UNDERWATER ROBOTS MEET THE CHALLENGE!

Future Engineers Go Head-to-Head
in a Remotely Operated Vehicle (ROV)
Competition LIVE at Discovery World!

Teams of Southeastern Wisconsin high school students, partner with water-sector businesses to build and deploy ROVs to be: submerged underwater, take sensor readings, plot data, and collect geologic samples! What for? - To win a trip to Hawaii, compete in the 2010 MATE International ROV Competition and explore careers in water.

Building the Water Generation!
Come cheer on the teams and learn about water technology and
Milwaukee area water industries

2010 **Discovery World's Pilot House**
\$10 includes admission to the competition and Discovery World

Sunday, March 7th
9am - 3:30pm
